1 DIRTY SECRETS: *Crime, Conspiracy and Cover-Up in the 20th Century.* Mordechai Vanunu—the man who blew the whistle on Israel's illegal nuclear weapons program and served 18 years in an Israeli prison for doing so—has called AFP correspondent Michael Collins Piper one of the most “brave and honest” journalists writing today. And now, at last, “the best of” Michael Collins Piper's various writings on a wide variety of topics have been gathered together in one place. This collection also includes a series of interviews of Piper conducted by Victor Thorn and Lisa Guliani, the maverick independent journalists who edited this volume. Articles include: the Oklahoma City bombing, the Federal Reserve, FDR and Pearl Harbor, Israel's attack on the *U.S.S. Liberty*, Israeli funding of Islamic fundamentalism, the murder of Martin Luther King, the Holocaust (from the point of view of Piper, who is of American Indian descent) and much, much more. Regularly sells for \$22—now reduced for bulk sale.

2 FUTURE FASTFORWARD: *The Zionist Anglo-American Meltdown.* Is the alliance between the United States, the British Empire, and Israel a paper tiger or a mighty empire? Is global “Empire Capitalism” about to come crashing down? Will there be a worldwide “people's war” against the super-capitalists and their Zionist allies? Is nuclear war inevitable? These are just some of the provocative questions addressed in *Future Fastforward*, a forthright, no-holds-barred new book by a prominent Asian political figure and globe-trotting diplomat. In *Future Fastforward*, author Matthias Chang, former top-level political secretary for Malaysia's outspoken longtime prime minister, Dr. Mahathir Mohammad, takes a stark look at the realities of global power politics and the ultimate and inevitable consequences for the not-so-secret

forces that are behind the push for a New World Order. Now being published for the first time in the United States, this book is a remarkable “insider's” view of world power politics from a point of view that few Americans have ever had the opportunity of hearing. The Power Elites of the Zionist Anglo-American Axis have been in control of the political systems throughout the world and, in all probability, there is not a single country in which their cunning and evil influence has not been felt. Chang describes the rapid and irreversible decline of the Zionist Anglo-American Empire; the forthcoming inevitable nuclear wars; Israel as the linchpin of those nuclear wars; the end of Empire Capitalism; and a New World map by the middle of this century. Softcover, 400 pages, \$25—now reduced for bulk sale.

3 THE NEW JERUSALEM: *Zionist Power in America.* Unlike anything ever published in the modern day, this explosive study combines in 184 pages, for the first time ever between two covers, all of the amazing facts and figures which document the massive accumulation of wealth and power by those who have used that influence to direct the course of U.S. foreign and domestic policy today. While there are many historical books on “the Israeli lobby” and about Zionist intrigues, etc, this is the only book that brings things “up to date” and constitutes a bold and thorough inquiry. Chapters include a list of prominent figures throughout history accused of “anti-Zionism” and “anti-Semitism,” a detailed dissection of the Bronfman family, who are often called “the Royal family of American Zionism,” an eye-opening summary of some 200 little-known, immensely wealthy Zionist families in America; a fascinating inquiry in to the infa-

mous Enron and INSLAW affairs, documenting the suppressed “Zionist connection” plus more. Softcover, 176 pages, #NJ, \$20—now reduced for bulk sale.

4 A POPULIST BIBLIOGRAPHY. By Robert Hilton Weems, founder of the Populist Party, this is a fascinating annotated overview of some of the best “must” read works on topics raging from taxes and government spending, America First nationalism, culture, state and regional studies, the money question, conspiracy: facts and theories, racial nationalism, racial nationalism, as well as brief biographies of some prominent populist leaders of the past. Don't let the word “bibliography” scare you. This is great reading. Hardcover, 206 pages, #PB, \$25—now reduced for bulk sale.

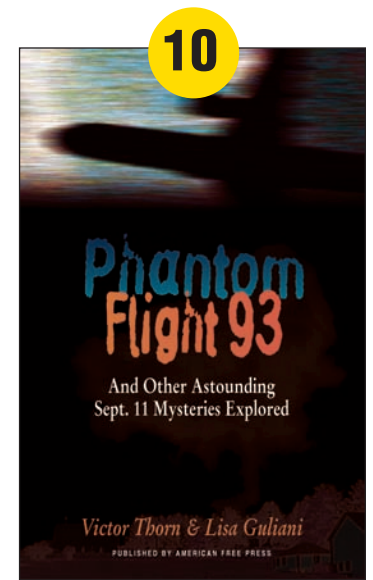

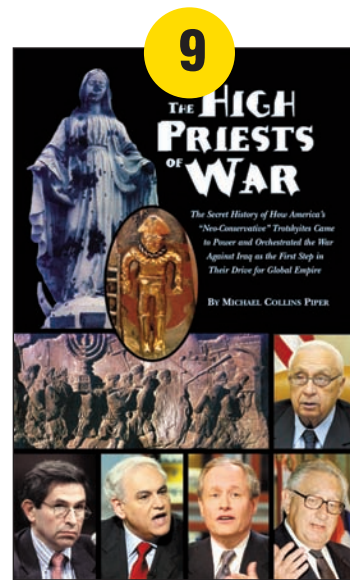

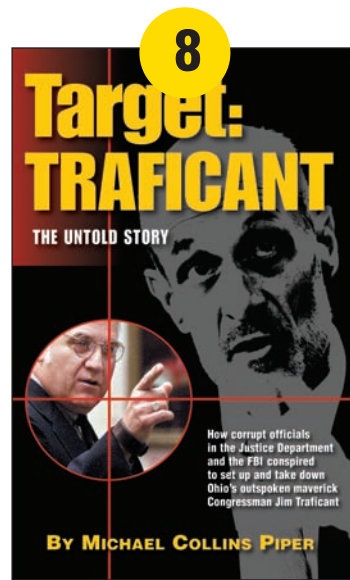

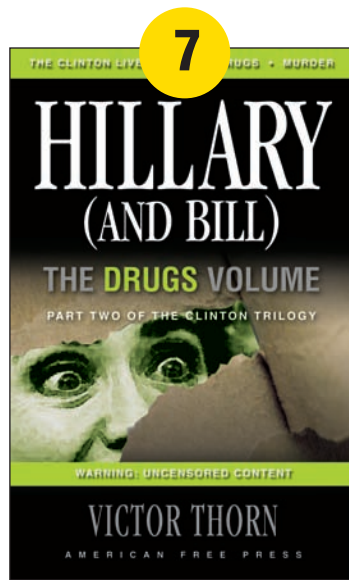

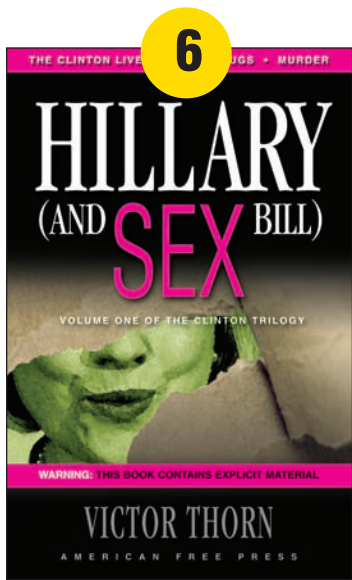

5 FINAL REPORT ON THE OKC BOMBING: On April 19, 1995, the Alfred P. Murrah Building was rocked by at least two explosions. Immediate press reports established that authorities had removed another bomb before it exploded and another had been located. In a few hours, however, an iron curtain of censorship descended on all news media in America. The entire story changed. That was the beginning of an avalanche of lies by the politicians and media. And in spite of what Timothy McVeigh's “confession” alleges, too many questions are not only unanswered but innumerable other facts are at odds with the “official” version. Released after seven years of investigation, this massive book is the last word on the bombing. Complete with many explanatory illustrations, charts and documents. The report airs facts that the media and government covered up about the bombing. Quality softcover, 555 pages, loaded with charts, illustrations and classified documents, \$40—now reduced for bulk sale.

6 HILLARY (AND BILL): *The SEX Volume.* In Part One of the Clinton Trilogy, Bill and Hillary's meteoric rise to success is chronicled. It's a carefully plotted path that eventually led them to the White House. But along the way, a series of compromises had to be made, including a prearranged marriage, clandestine assignments for the CIA, and Hillary's ultimate role as a "fixer" for her husband's many dalliances. Pulling no punches, investigative journalist Victor Thorn paints a compelling portrait of secrecy, deceit, violence, and betrayal that shatters the myth Mrs. Clinton has spent so many years trying to create. This three-book series is the most comprehensive examination of the Clinton marriage ever compiled, with *Hillary (And Bill): The Sex Volume* laying a riveting foundation for the next two books which follow. Softcover, 344 pages, \$30—now reduced for bulk sale.

FOUR BOOKS for \$50

7 HILLARY (AND BILL): *The DRUGS Volume:* Part Two of the Clinton Trilogy some of the most damning examples ever put into print of the U.S. government's crimes and corruption are exposed in glaring detail. Beginning with the Clinton family's long-standing ties to the notorious Dixie Mafia, this book illustrates how billions of dollars of cocaine, cash and weapons passed through Mena, Arkansas during the 1980s—with the the full knowledge of Bill and Hillary—to finance the illegal war in Nicaragua. As this thoroughly sourced tale unfolds, the reader encounters a sordid cast of characters including George Bush the Elder, Oliver North, Manuel Noriega, Webster Hubbell, Barry Seal, Dan Lasater and the Stephens brothers. In addition, an undeniable amount of evidence proves that nearly every one of Bill Clinton's gubernatorial campaigns—and his 1992 presidential bid—was

substantially financed with cocaine money. Softcover, 310 pages, \$30—now reduced for bulk sale.

8 TARGET TRAFICANT: *The Outrageous Story of How the Justice Department, the Israeli Lobby and the American Mass Media Conspired to Set Up and Take Down Congressman Jim Traficant.* By Michael Collins Piper. The Traficant case is the most outrageous hit-and-run operation ever orchestrated against a U.S. public official. Piper dissects the intrigues of the Justice Department and the FBI and shows that the congressman was innocent of all of the charges. Traficant gets out of prison on September 2 but this book shows that he should have never been sent there in the first place. A disturbing fact-filled account. Softcover, 176 pages, \$25—now reduced for bulk sale.

9 THE HIGH PRIESTS OF WAR—The trouble-makers behind the Iraq war are now targeting Iran. Here's the all-time first-ever history of how America's "neo-conservative" Trotskyites came to power and orchestrated the war against Iraq as a primary step in the drive for Global Empire, the so-called New World Order. Although since this book was first published there have been many books released about the neo-cons, but this still remains the only one that tells the entire story—no holds-barred. A fast-moving narrative that's a great book to give friends and associates for a better understanding of the forces misdirecting American foreign policy. The book is being circulated internationally and translated into Japanese, Malay and Arabic, acclaimed as the one book that explains the "who, what, when, where, why and how" of the tragic involvement of the

United States in the Iraq war. This carefully-documented 144-page volume has helped spread the word about the REAL reason for the Iraq war and how it is all part of a grand design that is being suppressed by the Controlled Media. Large photo section shows who these neo-cons are and the role they play in the plot. Softcover, 124 pages, #HPW, \$20—now reduced for bulk sale.

10 PHANTOM FLIGHT 93 & Other Astounding Sept. 11 Mysteries Explored. Flight 93 is the key to unraveling the entire 9-11 mystery. In *Phantom Flight 93*—the first and only book to emerge from the 9-11 truth movement on this subject—you will discover how this event in Shanksville could very well be the smoking gun which exposes the government's falsehoods once and for all. Starting with physical evidence—especially a 10 x 12 foot crater in an abandoned strip mine—it

becomes clear that a passenger jetliner could not have possibly crashed in Shanksville, Pennsylvania where federal officials said it did. Rather, the reality of that fateful morning is much more troublesome, and far more sinister. Also cited in this book are a plethora of lies concerning the now-infamous cell phone calls purportedly made by individuals such as Todd Beamer, 9-11 passenger list oddities, corrupt officials who were in a position to assist in the plan, cover-up the real facts and more. For far too long, Flight 93 has been overlooked by researchers and commentators in the alternative media. With the arrival of *Phantom Flight 93*, the public will finally see that they were deceived not only about the World Trade Center towers and the Pentagon, but also about an unproven crash in southwest Pennsylvania which became the stuff of legend, but was ultimately nothing more than a poorly executed hoax. Softcover, 200 pages, #2447, \$25.
