## Everything They\* Ever Told Me Was a Lie

By AFP's popular no-holds-barred reporter Pat Shannan

**T**he media are among the “THEY” who are telling us lies . . . And in an engaging new book, AFP correspondent Pat Shannan lays it all out in no uncertain terms . . . His title says it all . . . **EVERYTHING THEY\* EVER TOLD ME WAS A LIE**. Finally completing a work that took four years, intermittently, between exposing false history for THE BARNES REVIEW and weekly investigative reporting for AMERICAN FREE PRESS, Shannan has scored again! In fact, the final manuscript he sent was so big that we had to slice it in half and make it into two volumes. Volume One is a blockbuster, spanning the past half century and covering the unknown facts about the JFK assassination and the still-growing Apollo 11 controversy of the 1960s to 9-11 and the Obama citizenship hoaxes of current times. (We hope Volume Two will follow soon.)

*Everything They\* Ever Told Me Was a Lie* explains from the outset exactly who “They” are (only the newest of AFP readers wouldn’t already know) and how a cooperative news media, by ignoring facts and refusing to address pertinent questions, allow outrageous lies to meld into definite, indisputable truths.

The practice isn’t new. John Wilkes Booth’s granddaughter told us in her book 75 years ago

how Booth escaped and why the government insiders protected the whole truth of the Lincoln assassination episode (see page A-4). What is new are the shrewd techniques of modern deception—particularly one called “television.”

Shannan shows us how TV is utilized not only with trick photography—as with the Moon walks and 9-11 tapes—but also in the “selling” of favored candidates or programs (e.g. Obama and gun control) as well as the ignoring or even smearing of the un-anointed ones (i.e., Ron Paul and government conspiracies).

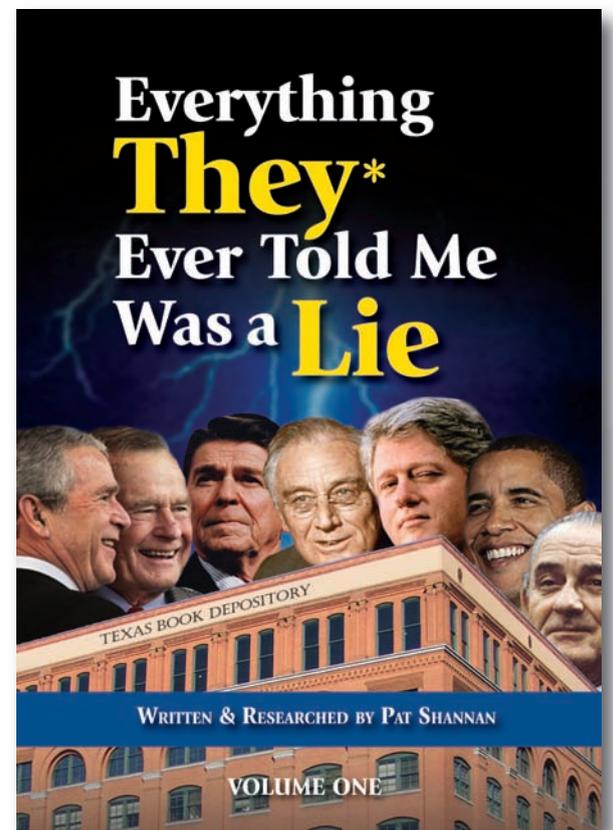

Shannan wades into these murky waters of deception wielding a scepter of truth and logic that merely asks the reader to use the same.

What we do know for sure is that the many government-created myths could not have survived all these years without great support from a very cooperative news media.

Remember these words as you read Shannan’s new book . . .

“When any government, or any church for that matter, undertakes to say to its subjects, ‘This you may not read, this you may not see, this you are forbidden to know,’ the end result is tyranny and oppression, no matter how holy the motives.”

—ROBERT HEINLEIN

\*Who are “THEY”? “They” are the plotters and deceivers who pull the strings from behind the scenes; the super-rich bankers, industrialists, politicians and intelligence rogues who pulled off the murders of Lincoln, JFK, MLK, RFK and others. The names and faces change, but their goals remain consistent: to “run the show.”

# The Secret Stories Behind Am

NEW BOOK FROM AMERICAN FREE PRESS & PAT SHANNAN

## An amazing encyclopedia of American conspiracy

Even J. Edgar Hoover said there were two "Oswalds." Which one did Jack Ruby shoot in Dallas before he could be questioned about the killing?

### Did Jack Ruby Really Kill 'Lee Harvey Oswald'?

### New revelations surrounding the JFK assassination conspiracy

Nearly half a century later, the JFK assassination remains *officially* solved but *historically* unsolved, and Shannan shows us how no facts have been kept from the American people more than those in the area of government-sponsored political assassinations.

Everyone has seen the TV films of Jack Ruby committing murder in the Dallas police station, but how many know that it was not the Lee Oswald born in New Orleans on Oct. 18, 1939 that Ruby shot?

A second "Oswald" was actually a New York-born son of Russian immigrants, who had such a grasp of the Russian language that his future Russian wife, Marina, thought him to be a Russian native the first day they met.

The two "Oswalds" looked almost enough alike to have been identical twins and had been officially melded into one person shortly after each joined the Marines in the late 1950s. Even J. Edgar Hoover knew of "someone using Lee Harvey Oswald's identity" as early as June 1960, as his signature on letters under FBI letterhead prove. Why would Hoover have even known Oswald's name three and half years before the assassination?

The truth is that the CIA is continually grooming assassins and "sheep dipping" potential patsies for future use. Here we see how the two "Oswalds," as with those in most cases, were brought together for

"something" but nobody had decided exactly what at the time and wouldn't for years. John F. Kennedy was not even a national figure when the Oswald ploy was undertaken, let alone the presidential thorn in the side of the establishment that he would become in the next decade.

### James Earl Ray didn't kill M.L. King . . . and Sirhan Sirhan didn't kill RFK . . .

The evidence shows "beyond a reasonable doubt" that James Earl Ray was framed by no less than J. Edgar Hoover and the FBI for the murder of Martin Luther King in 1968, and that Robert F. Kennedy was never hit by a single slug from the .22 revolver wielded by Sirhan Sirhan. The facts, according to Shannan, prove that RFK was actually assassinated by someone else. There is no other viable conclusion.

Even the English language-challenged Sirhan was the first in the courtroom to realize that he was being "sold-out" by defense lawyers, but the judge refused to let Sirhan fire his attorney and further threatened to gag Sirhan if he didn't remain quiet.

Then, the high-profile Grant Cooper, renowned as one of the best criminal defense attorneys in California, proceeded to stipulate to dubious "facts" presented by the prosecution, and, further cementing his client's conviction, failed to recognize that the gun presented to the court as the murder weapon that killed Bobby Kennedy had a different serial number than the Iver Johnson .22 revolver fired by Sirhan in Los Angeles's Ambassador Hotel kitchen. The prosecution itself proved that Kennedy was killed by someone other than Sirhan, and the defense attorneys didn't even act on it.

### A few questions 'they' won't answer

How could Arthur Bremer have fired seven shots from a five-shot .38 revolver the day he attempted to kill Gov. George Wallace in Maryland in 1972?

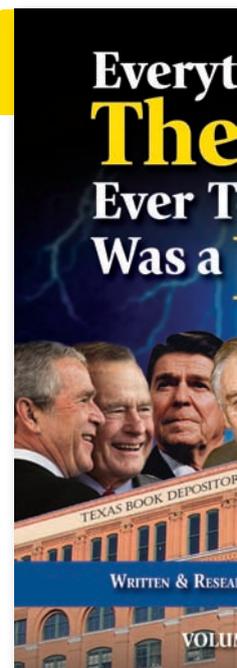

How could Vince Foster have shot himself twice in the mouth and left not only no blood at the scene in Washington's Fort Marcy Park but no weapon (initially) either?

Just how astronomical are the odds that the family of the would-be assassin of President Ronald Reagan in 1981 would be close friends and business associates of Vice President George Bush in 1981? The mainstream media didn't tell us much at all about the relationship of the Hinckleys and Bushes.

### Yes, Pat Tillman was murdered . . .

The murder of Pat Tillman portrays Shannan's book title as well as anything. Following an attack of "Red, White & Blue Fever" (defined in the book text), the NFL star with movie star good looks gave up a lucrative career in professional football to join the Army and serve in Afghanistan with his younger brother, Kevin. However, after being there less than a year, Pat realized the frustrating folly of this conflict and how he had become but a poster boy for the Bush oil grab. Tillman was no "meathead jock" but rather quite an intellectual and a reader with a voracious appetite.

He had corresponded by letter with liberal

columnist and anti-war author Noam Chomsky, sharing inside information confirming Chomsky's opinions with factual, on-sight views. It was apparent that Tillman, perplexed at "protecting Afghanistan's poppy fields instead of freedom for America," was about to become the "poster boy" for the anti-war movement at the end of his tour of duty.

Then he was killed, and the propagandizing news media told us it happened under enemy fire. Then the Army released a report that Tillman died a "hero," making up a baloney-filled story of his heroic actions. Immediately, his mother received a Silver Star posthumously, the second highest award for valor in the Army, and a letter from his general praising

his fearlessness under fire, but it was all a lie.

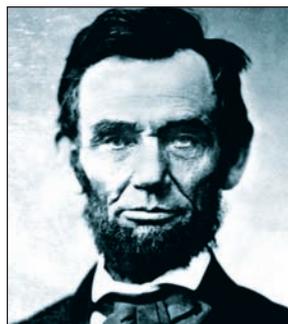

Next, as truths began to surface, the Army had to create new cover stories to replace the last falling-apart cover story. The new one a few weeks later was that Tillman had been killed mistakenly by friendly fire from somewhere between "33 and 270 yards away."

Finally, the medical examiner's report surfaced say-

ing, "No evidence at all of enemy fire was found at the scene. No one was hit by enemy fire, nor was any government equipment struck." The doctors, whose names were redacted, said that the three bullet holes in Tillman's head were so close together that it looked as though the Army Ranger was cut down by an M-16 fired from a mere 10 yards or so away.

Three years later, Gen. Wesley Clark came forward to publicly confirm that there had never been any evidence of "accidental friendly fire" being responsible for the death of Tillman, to agree with the Army doctors and conclude that order had come from the very top to murder the NFL star because it was feared he was about to become an anti-war political icon.

## Reagan & Lincoln: Shocking information on two 'heroes'

In *Everything They\* Ever Told Me was a Lie*, Shannan tears the facade off the phony American heroes. The exposing of Abraham Lincoln as the tyrant he was, you may be able to take; but the stripping naked of still current "conservative" hero Ronald Reagan to show his actual liberal skin may be more than you want to know.

## Counterfeit money racket finances tyranny . . .

All of the evil-doing in our world today is done with counterfeit money, as *Everything They\* Ever Told Me was a Lie* plainly exposes.

Economists like to debate about money "backed by gold and silver," and most Americans today have either forgotten or never heard of the great Fed heist of the 1960s; or never knew that the money was not to be "backed" by gold and silver but rather was gold and sil-

# The Book That Turns American History on its Head!

ver, circulating as coin; and that the counterfeit paper masquerading as “dollars” that they spend today will continue to inflate until it evaporates into nonexistence.

Little has changed in 223 years, except for the multiplicity in numbers of this problem in America. It's always been there, hiding in plain sight.

No one seems to understand that with the ability to create counterfeit money, the federal government can accomplish anything and everything else.

- How much does a hit man cost?
- How much to buy an election?
- How much to purchase electronic voting machines to ensure that the election will be fixed without any payoffs?
- How much to frame an undesirable who might be exposing government corruption?
- And how much to arm ignorant officers to enforce unconstitutional statutes?

The answer is “nothing,” when the controlling faction can create the funds from nothing.

The famous quote from John Adams in a 1787 letter to Thomas Jefferson applies even stronger today: “All the perplexities, confusion and distress in America arise

not from defects in the constitution or confederation, nor from a want of honor or virtue, so much as from downright ignorance of the nature of coin, credit and circulation.”

## Pat Shannan lays out the whole case: 9-11 was an inside job—no doubt!

### ‘They’ lied to us yet again!

**C**an we really know that, over the history of fighting fires in modern constructions, a skyscraper has never collapsed from its own heat—even after burning for days sometimes—and still readily believe that it happened three times in seven hours in New York City on Sept. 11, 2001?

Was it the military maneuvers, coincidentally going on that day in the Atlantic, that caused NORAD to back off an offensive; or was this a mere ploy to render a convenient excuse for not reacting? Why were no fighter planes in the skies all morning, and who issued the orders to stand down?

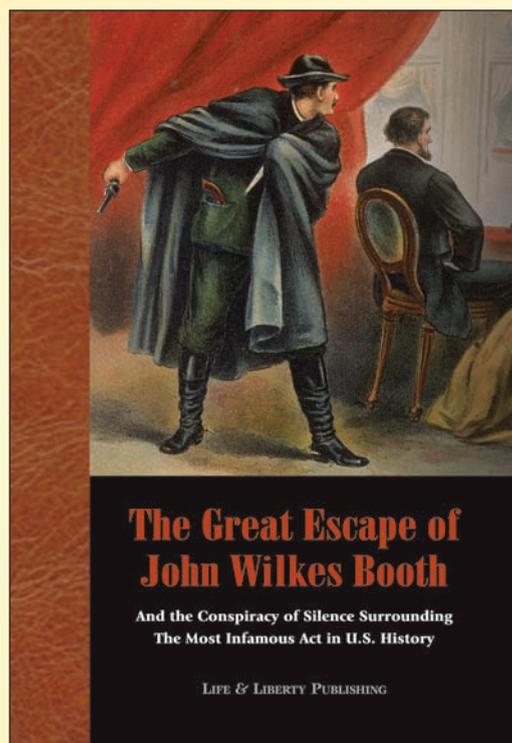

## Don't let ‘them’ lie to you: Barack Obama is not an American citizen . . .

### ‘Birthers’ have it right! Here's proof!

**T**he liberal mainstream media and apologists for Barack Obama (aka Barry Soetoro) like to tell you that the president has laid to rest suspicions about his birth certificate and where he was born. But he hasn't. Here's the proof that Obama is lying about his past—proof that could overturn every law he has approved since taking the oath of office. Shannan exposes the whole affair—point by point.

## And there's even more . . .

- Did we ever land on the Moon? Facts & myths.
- Proof Tim McVeigh was a government operative.
- Who really tried to assassinate Ronald Reagan?
- Vince Foster and Hillary Clinton—the secrets.
- FDR's Social Security scam, plus lots more . . .

## The Great Escape of John Wilkes Booth

*And the Conspiracy of Silence Surrounding The Most Infamous Act in U.S. History*

**T**he conventional wisdom is that the assassin of President Abraham Lincoln—John Wilkes Booth—was shot in the neck and killed in a barn on the Garrett farm in Virginia just 12 days after the murder. But truth is always stranger than fiction. In this book, longtime investigative author Pat Shannan and others detail a wealth of evidence showing how Booth actually escaped, lived a long life and who the man in the barn really was. Once you read this book, you'll never look at the Lincoln assassination—or American history—in the same way ever again. Who was in on the high-level plot to kill Lincoln? Who was Lafayette Baker and what did his cryptic poem, written in the margin of a military manual, really mean? Who was John Stevenson and was his deathbed confession real or fiction? What happened to Booth's accomplices? Who were the Knights of the Golden Circle and how did they fit into the plot? Were members of Lincoln's own cabinet in on the assassination scheme? What about John Wilkes Booth's last will and testament? Who was Izola D'Arcy Booth and what inside secrets did she hold? What happened to Booth's diaries? Booth's gold? How could the body of “Booth” have been so easily misidentified? How could all of this been kept secret for so long—and why? Much more. Softcover book, 76 pages, **JUST \$10 EXTRA.**
