

Former High-Level Washington Insider Blows Whistle on Zionist Intrigues, Crime, Treason in Both Major Parties

Guilt by Association exposes the 2008 presidential race as only the latest election in which candidates compete by pledging their allegiance to Israel.

Guilt by Association documents how organized crime operates hidden in plain view by displacing facts with what people can be deceived to believe: Iraqi WMD, ties to al Qaeda, mobile biological laboratories, etc.—all traceable to those skilled at waging war by a war of deception.

Guilt by Association shows how an “enemy within” endangered and discredited America by associating U.S. foreign policy with the Colonial Zionism pursued by expansionist Israel.

Guilt by Association shows how this transnational criminal syndicate staged the latest financial crisis, a repeat of the financial pump-and-dump that ravaged the S&L industry two decades ago.

Guilt by Association documents how, over decades, treason became systemic, aided by foreign agents posing as domestic lobbyists for a criminal state.

Guilt by Association has attracted the support of moderate and anti-Zionist Jews appalled at how U.S. national security was undermined by pro-Israeli elites and extremists.

See www.criminalstate.org for an ongoing chronicle of trans-generational manipulations staged by the organized crime syndicate chronicled in *Guilt by Association*.

Guilt by Association documents in persuasive detail:

- How game theory keeps the national security state intact due to ongoing treason by pro-Israeli elites and extremists inside the U.S. government.

- How lengthy pre-staging and in-depth personality profiling enable the displacement of facts with beliefs as a means to manipulate policymakers and the public.

- How an Ashkenazi oligarchy emerged to dominate the Russian economy and how John McCain became allied with this transnational criminal elite.

- How the power of association is used by “the people in between” as a form of weaponry when waging unconventional warfare in the mental environment.

- How the “Washington” consensus endangered and discredited the U.S. by creating oligarchies worldwide—at “our” insistence.

- How, by our own “free” choice, markets and democracies are systematically undermined by those masterful at manipulating beliefs.

- How the Anti-Defamation League attacks as an anti-Semite anyone documenting the common source of this trans-generational treason.

- Why the “New Anti-Semitism” must discredit anyone critical of Israeli policies.

“*Guilt by Association* is a magnificent, timely and persuasive study of how stealth, deceit and cunning helped create today’s perilous situation in the Middle East and the high stakes for all of us in the presidential race.”

—PAUL FINDLEY, Member of Congress 1961-1983 (first Member of Congress openly targeted for removal by AIPAC, the Israel lobby)

“Carefully researched, explosively revelatory, powerful, compelling and certain to be highly contentious, this book must be widely read for precisely those reasons.”

former counsel to the U.S. Senate Committee on Finance (1980-87), the writer explains how financial freedom became a proxy for human freedom. And how, by our own “free” choice, we were induced to embrace the very forces that imperil our freedom.

“America faces the greatest challenge of its 232-year history—its credibility in tatters, its security at risk, its finances awry, its future in jeopardy and its leadership adrift. A John McCain presidency is poised to make matters worse. Possibly far worse. However, that does not mean a Barack Obama presidency would be better, only less worse.”

'Guilt' the Nail in McCain Coffin?

Neocon agenda, deceptions exposed in new book by insider

By Andrew I. Killgore

From 1980 to 1987, author Jeff Gates served as counsel to the Senate Finance Committee, working with Sen. Russell Long of Louisiana, son of the state's former Gov. Huey Long, who was assassinated at age 42 as he was preparing a presidential campaign. James Farley, postmaster general under President Franklin Roosevelt, had run a "penny postcard" poll confirming that if Huey Long actually ran for president, Roosevelt could not be re-elected. Fifty years later Russell Long remained convinced that FDR's people had killed his father.

At a 2002 speech Gates gave in London, he met "John Doe," related to one of the well-known people who had endorsed two of Gates' earlier books. Soon afterward, Doe assured him that if Gates undertook the research and analysis the results of which appear in *Guilt*, the evidence would identify who killed Huey Long, and why. The facts Gates assembled point not to Roosevelt's people but to the syndicate identified in *Guilt*.

Because control of the Oval Office is the syndicate's goal, the immediate purpose of *Guilt* is to alert the public to the perils of John McCain emerging as president and commander-in-chief. McCain's election would embolden those skilled at displacing facts with deceit, Gates documents with convincing detail.

In the first chapter Gates illustrates the intergenerational sophistication with which neoconservatives "prepared the minds" of the American public to invade Iraq in response to 9-11. Academics and think tanks pushed Samuel Huntington's 1996 *Clash of Civilizations* to promote a "clash consensus"—five years before 9-11. That same year Richard Perle along with other neocons such as Douglas Feith wrote *A Clean Break: A New Strategy for Securing the Realm* for incoming Israeli Prime Minister Binyamin Netanyahu. This helped lay more "mental threads" for removing Saddam Hussein. Then senators McCain, Joe Lieberman, a Jewish Zionist from Connecticut, and Jon Kyl, a Christian Zionist from Arizona, co-sponsored the Iraq Liberation Act of 1998. Distracted by the Monica Lewinsky affair, President Bill Clinton signed it.

Four days after the destruction of the World Trade Towers, then Deputy Secretary of Defense Paul Wolfowitz was urging President George W. Bush to invade Iraq. Not only was there was no evidence that Iraq had weapons of mass destruction, but there was no real connection between Saddam's secular regime and the deeply religious al Qaeda. At the same time, other

Zionists from the U.S. Defense Department under Wolfowitz and, not so coincidentally, Feith were feeding false intelligence to the White House. The war would not be costly, according to Wolfowitz, and the entirely unnecessary and illegal war was launched.

In his chapter on "John McCain and the Financial Frauds," Gates reviews McCain's unsavory role in the "Keating Five" scandal. The following chapter recounts the shameful role of McCain's father in helping to cover up Israel's deliberate attack on the *USS Liberty* during the 1967 Six-Day War in which 34 of the crew were killed and 294 wounded. "From a game theory perspective," Gates explains, "by covering up the murder of Americans aboard the *USS Liberty*, a U.S. president (with the aid of Admiral John McCain, Jr.) confirmed that Israeli extremists could murder Americans without endangering U.S. support."

In the chapter on "The Presidency and Russian Organized Crime," Gates describes a John McCain who was either "ignorant about—or complicit in" Russian organized crime. During Boris Yeltsin's first term as president of Russia, a handful of "oligarchs" financially pillaged Russia. Six of the "Big Seven" oligarchs, whom Gates terms Ashkenazis, qualify for Israeli citizenship.

McCain described Mikhail Khodorkovsky, the most infamous of Russia's corrupt oil oligarchs, as a "political prisoner." Notes Gates: "To claim Khodorkovsky as a 'political prisoner' requires a closer look at how, at 32 years of age, a single Russian-Ashkenazi citizen amassed [formerly] state-owned assets worth more than \$30 billion." Gates goes on to document the widespread criminality involved in Khodorkovsky's billions.

JOHN MCCAIN

New book reveals closet full of skeletons.

Guilt describes how Americans were induced to freely choose the very forces that endanger their freedom. Thus the role of those masterful at waging "war by deception" (the motto of the Israeli Mossad) by displacing facts with what the "mark" (i.e., the U.S.) could be deceived to believe: for example, that Iraq had nuclear weapons and mobile biological weapons laboratories and that the fully secular Saddam Hussein had ties with the fundamentalists of al Qaeda.

Crafted as a wake-up call, the author documents how Tel Aviv wields control over U.S. foreign policy in an environment where lawmakers have been intimidated by the Israel lobby. "U.S. national security," Gates writes, "requires a rejection of the self-deception that Israel operates as a trustworthy ally in an unstable region while ignoring its multi-decade role in provoking and sustaining instability." ★
