That's why AFP is pleased to announce that we are throwing our support behind Jim's efforts to unite the patriots, populists, independent conservatives and all others who believe that it's time to place America First.

Tougher and more outspoken than ever before, Jim's coming to Washington, DC in order to announce his plans, his program for waking up Americans—and waking them up NOW—and setting the stage for a full-force effort to restore this country to the hands of the people. Feb. 13 in Washington, D.C.—a landmark meeting

A national political action conference featuring Ohio's tough-talking, no-holds-barred former

REP. JIM TRAFICANT

During the second half of the 20th century, there was probably no other congressman like Jim Traficant and he's back with a vengeance. AFP is inviting you to meet Jim in Washington on President's Day weekend!

There are only a handful of individuals who have been putting themselves forward over the past several years as potential leaders of an America First movement. However, Jim Traficant is the one who stands out as having the intellect, the experience, the drive, the emotion, the agenda—and, really, most of all, **the guts**—to step ahead of the crowd and address the issues that need to be addressed. There's no doubt about it . . . **Jim Traficant is an American Original!**

AMERICAN FREE PRESS is inviting patriots and Constitutionally oriented organizations and institutions from all across the country to attend. Jim Traficant is going to be there to lay out his agenda for America's future and AFP is convinced that he's a leader whom the American people need to listen to. This conference has the potential to be a major event that could play a pivotal role in shaping the path of American political discourse in the years ahead.

Display tables available upon request . . . If your organization would like a display table at this event, you may arrange for one in return for a donation. Contact AFP's Pete Papaheraklis at (202) 544-5977 for details.

MEET JIM AND DECIDE IF HE IS THE CANDIDATE FOR YOU!

ng—AFP's first-ever American Town Hall event!

Why AFP Would Endorse Jim Traficant for Congress or the Presidency Should He Choose to Run . . .

James Traficant shown with his wife, Tish.

Jim Traficant is unlike any other politician in this country today. Traficant actually talks about the U.S. Constitution and what it means and why (and how) it's being ignored. He says that the tax system needs to be overhauled, that the IRS needs to be (and can be) eliminated and that a new tax system can supply all the revenue America needs to function without raping the taxpayers every April 15.

Jim also says that the Federal Reserve System isn't federal—that it's the creation of and controlled by international bankers and financial institutions that have no loyalty to America or the American people—and that the Fed needs to be abolished. He openly challenges the influence of the Israeli lobby—and other well-heeled lobbies and interests—in official Washington.

Jim thinks it's time that America bring its troops home from policing the world and engaging in fruitless and unnecessary foreign wars and put them to work protecting America's borders and sovereignty from waves of illegal immigrants and potential enemies.

Jim is someone who says things that need to be listened to and AMERICAN FREE PRESS is proud to place itself foursquare behind Jim's efforts to get the word out.

That's why we're hoping you'll be planning to come to Washington—along with many other Americans from across the country—and to hear what Jim has to say.

Spread the word through letters, cards, email and phone calls to all people you think would be interested. All people of good will are invited to attend.

IDEA: Charter a bus and bring a group of patriots to D.C. from your home town!

New Book on the *Liberty* Unlike Any Other— AFP's First Book on the 1967 Israeli Massacre

SHIP WITHOUT A COUNTRY

Eyewitness Accounts of the Attack on the *USS Liberty*

When one considers that thousands of books, articles, essays, documentaries and blockbuster films have been made concerning pivotal events in history such as Pearl Harbor and the assassination of JFK; at the same time we need to ask: why has no such attention toward the attack on the *USS Liberty* (June 8, 1967) taken place? After all, had the ship been sunk as planned, it would have kicked off a possibly nuclear war between the U.S. and USSR.

The reason for this silence over the *Liberty* attack is simple. It didn't go off as planned, meaning the ship was not sunk. More importantly, the entity responsible for this attack was the most sacred of all sacred cows—Israel. Moreover, any rational person who spent even five minutes considering the facts of this event would walk away concluding that it was a deliberate act of war against the U.S.

In this book, readers will come into contact with many of these facts—disturbing items that have been kept deliberately—some might even say fanatically—hidden, for nearly half a century. They paint the ultimate picture of set-up, betrayal, and cover-up—both by Israel and elements within the U.S. government. You'll hear DIRECTLY from the survivors as well as high-ranking U.S. Navy and government officials who were witness to the subsequent cover up. These men agreed to be interviewed—at great physical and professional risk to themselves—so that the world would know what they saw that fateful day. Now you can too.

FROM PHIL TOURNEY:

Staring Into Lucifer's Eyes

Although raised a Catholic, he never took the idea of the devil's existence seriously until June 8, 1967 when his ship, the *USS Liberty*, was attacked by air and naval forces of the state of Israel in an act of war lasting about the same length of time as the Japanese attack on Pearl Harbor.

"After a two-hour sneak attack involving close to 1,000 rockets, more than 5,000 armor-piercing machine gun bullets, napalm, five torpedoes, and just about every other damned thing you can imagine, the sight of an Israeli helicopter loaded with armed commandos preparing to board the ship brought an even sicker feeling to my gut than what I felt when we were under attack. As the helicopter hovered over the deck at about twenty feet, time stood still. I knew what they were here for: to kill off the crew and then scuttle the ship.

"As the helo hovered, I locked eyes with one of the commandos from about fifty feet away. I'll never forget his eyes. They were like the eyes of the devil for all the pity in them. In the moment we locked eyes I knew what he and his buddies were here for, and realized this might be the last chance I had to strike back at the monsters that attacked America. I produced the only weapon I had in my hands at the time, which was my middle finger, and showing no pity for what his comrades in arms had just done to us, he chuckled and gave me the finger back. . . ."
