### *The Diversity Delusion: How Race and Gender Pandering Corrupt the University and Undermine Our Culture*

**NEW!** America is in crisis, from the university to the workplace. Toxic ideas first spread by higher education have undermined human values, fueled intolerance, and widened divisions in our larger culture. Chaucer, Shakespeare and Milton? Oppressive. American history? Tyranny. Professors correcting grammar and spelling or employers hiring by merit? Racist and sexist. Students emerge into the working world believing that human beings are defined by their skin color, gender, and sexual preference, and that oppression based on these characteristics is the American experience. Speech that challenges these orthodoxies is silenced with force. The root of this problem is the belief in America's endemic racism and sexism, a belief that has engendered a metastasizing diversity bureaucracy in society and academia. Diversity commissars denounce meritocratic standards as discriminatory, enforce hiring quotas, and teach everyone to think of themselves as perpetual victims. Author Heather MacDonald argues that we are creating a nation of narrowed minds, primed for grievance, and that we are putting our competitive edge at risk. But there is hope in the works of authors, composers, and artists who have long inspired the best in us. Compiling the author's decades of research and writing on the subject, *The Diversity Delusion* calls for a return to the classical liberal pursuits of open-minded inquiry and expression. Hardback, 288 pages, \$29.

### *A Truthseeker's Guide to False Flags and Other Strange Events in American History*

**NEW!** Fort Sumter, the sinking of the *Maine* and *Lusitania*, the attack on Pearl Harbor, the North Vietnamese attacks in the Gulf of Tonkin, the "Arab terrorists" who took down the Twin Towers—all of these events and the ensuing inflammatory mainstream media coverage were used as rallying cries to push a pro-peace nation toward war. But could these events have been prevented? Did they occur the way we were told? A bigger question is, what if the causes of these events and the media propaganda barrage were all scripted by the Deep State? In *A Truthseeker's Guide to False Flags and Other Strange Events in American History*, Clint Lacy examines the official narratives of each of these events (and more) and then provides information that contradicts the official story. Softcover, 195 pages, \$22.

### *Forsaken But Not Forgotten: America's Most Shameful National Secret Revealed*

**NEW!** It would be shameful if the U.S. government turned its back on one captured American. But between the Russian civil war, World War II, the Korean War, Vietnam and the Cold War, as many as 30,000 American soldiers, sailors, Marines, airmen, and civilians were knowingly abandoned by this country's leaders. Inside *Forsaken But Not Forgotten*, longtime author and researcher

Philip Rife presents the government's rationale for abandoning so many of America's military men behind enemy lines. You can decide for yourself whether these were the right actions. Softcover, 89 pages, \$15.

### *Pale Horse Rider: William Cooper, the Rise of Conspiracy, and the Fall of Trust in America*

**NEW!** We are living in a time of unprecedented distrust in America: Faith in the government is at an all-time low, and political groups on both sides of the aisle are able to tout preposterous conspiracy theories as gospel, without much opposition. "Fake news" is the order of the day. This book is about a man to whom all of it points, the greatest conspiracist of this generation and a man you may not have heard of. A former U.S. naval intelligence worker, Milton William Cooper published his manifesto *Behold a Pale Horse* in 1991. Since then it has gone on to sell hundreds of thousands of copies. According to *Behold a Pale Horse*, JFK was assassinated by his driver, AIDS is a government conspiracy to kill "unwanted" Americans, and the Illuminati are secretly involved with the U.S. government to manage relationships with extraterrestrials. Cooper died in a shootout with Apache County sheriffs deputies in 2001, two months after September 11, in the year in which he had predicted catastrophe. Journalist Mark Jacobson not only tells the story of Cooper's fascinating life but also provides the social and political context for American paranoia. Hardback, 384 pages, \$27.

## *Strange Company: Military Encounters with UFOs in WWII*

**NEW!** By Keith Chester. Mankind had reached a threshold in the forth decade of the 20th century. There were unprecedented scientific and technological achievements, but despite such progress, humanity was entering one of its darkest chapters. World War II would grip the world with terror for six years. During that time military personnel reported seeing numerous highly unconventional aircraft in all theaters of operation. These objects had extraordinary flight performance capabilities, came in a variety of shapes, sizes, and colors, and were able to travel at extraordinary speeds and avoid radar detection. *Strange Company* is the first in-depth account of unconventional aircraft observed and reported by the military during World War II. It includes the reactions by military commands, their viewpoints, and theories as they struggled to make sense of the observations. *Strange Company* presents one of the greatest wartime mysteries, one that has been shrouded in ignorance for more than 60 years. And it suggests that while an immense 20th-century war was raging on Earth, there appeared to be someone, or something, from somewhere else, watching us. Softcover, 320 pages, \$18.

## *Ship of Fools: How a Selfish Ruling Class Is Bringing America to the Brink of Revolution*

**NEW!** The popular Fox News star of *Tucker Carlson Tonight* offers his signature fearless and funny political commentary on how America's ruling class has failed everyday Americans. In *Ship of Fools: How a Selfish Ruling Class Is Bringing America to the Brink of Revolution*, Tucker Carlson tells the truth about the new American elites, a group whose power and wealth has grown beyond imagination even as the rest of the country has withered. The people who run America now barely interact with it. They fly on their own planes, ski on their own mountains, and watch sporting events far from the stands in sky boxes. They have total contempt for you. "They view America the way a private equity firm sizes up an aging conglomerate," Carlson writes, "as something outdated they can profit

from. When it fails, they're gone." In *Ship of Fools*, Carlson offers a blistering critique of our new overlords. Traditional liberals are gone, he writes. The patchouli-scented hand-wringers who worried about whales and defended free speech have been replaced by globalists who hide their hard-edged economic agenda behind the smokescreen of identity politics. They'll outsource your job while lecturing you about transgender bathrooms. Left and right, Carlson says, are no longer meaningful categories in America. "The rift is between those who benefit from the status quo, and those who don't." Our leaders are fools, Carlson concludes, "unaware that they are captains of a sinking ship." But in the signature and witty style that viewers of *Tucker Carlson Tonight* have come to enjoy, his book answers the all-important question: How do we put the country back on course? Hardback, 256 pages, \$28.

## *Hidden History: An Exposé of Modern Crimes, Conspiracies, and Cover-Ups*

**BACK!** In *Hidden History*, you will see the amount of effort that our government has dedicated to covering up the truth. Starting with the assassination of JFK, author Don Jeffries chronicles the issues that have plagued our country's history. Whether it is the assassinations of MLK and RFK, Iran-Contra, the OKC bombing, TWA Flight 800, vote fraud, or 9/11, every major disaster or war that we've witnessed has been distorted. Jeffries also delves into a host of other important topics. So get ready to be awed by how much has been hidden by our leaders over the past 50 years. Features a new introduction by Roger Stone. Softcover, 392 pages, \$23.

## *Iraq and the Politics of Oil: An Insider's Perspective*

**NEW!** There was an oil agenda when the U.S. went to war in Iraq in 2003—what the agenda was is revealed in this book. Was the Iraq war really about oil? As a senior oil advisor for the Office for Reconstruction and Humanitarian Assistance (ORHA) and briefly as minister of oil, Gary Vogler thought he knew. But while doing research for a book about his experience in Iraq, Vogler discovered that what he knew was not the whole story—or even the true story. The Iraq war did have an oil agenda underlying it, one that Vogler had previously

denied. This book is his attempt to set the record straight. *Iraq and the Politics of Oil* is a fascinating behind-the-scenes account of the role of the U.S. government in the Iraqi oil sector since 2003. Vogler describes the prewar oil planning and the important decisions made during hostilities to get Iraqi oil flowing months ahead of schedule. He reveals how, amid the instability of 2006, the fixing of the Baiji Refinery contributed significantly to the success of the oil sector in the Sunni part of northern Iraq during and after the surge. Vogler gives us an expert insider's view of the largest oilfield auctions in the history of the international oil industry and massive increases in oil production. But under the successes so deftly chronicled here, a darker political narrative finally emerges, one that reaches back to the decision to go to war with Iraq. Hardback, 318 pages, \$29.

## *Nourishing Diets: How Paleo, Ancestral & Traditional Peoples Really Ate*

**NEW!** Sally Fallon Morell, bestselling author of *Nourishing Traditions*, debunks diet myths to explore what our ancestors from around the globe really ate—and what we can learn from them to be healthy, fit, and better nourished, today. The Paleo craze has taken over the world. It asks curious dieters to look back to their ancestors' eating habits to discover a "new" way to eat that shuns grains, most dairy, and processed foods. But, while diet books with Paleo in the title sell well, are they correct? Were paleolithic and ancestral diets really grain-free, low-carb, and based on all lean meat? This book explores the diets of our primitive ancestors from around the world—from pre-industrialized Europe to the inhabitants of "Blue Zones," where many people live to be 100 years or more. In looking to the recipes and foods of the past, Fallon Morell points readers to what they should actually be eating—the key principles of traditional diets from across cultures—and offers recipes to help translate these ideas to the modern cook. Softcover, 288 pages, \$26.

## *Secret Empires: How the American Political Class Hides Corruption and Enriches Family and Friends*

**NEW!** Peter Schweizer has been fighting corruption—and winning—for years. In *Secret Empires* he explains how a new corruption has taken hold, involving larger sums of money than ever before. Stuffing tens of thousands of dollars into a freezer has morphed into multibillion-dollar equity deals done in the dark corners of the world. An American bank opening in China would be prohibited by U.S. law from hiring a slew of family members of top Chinese politicians. A Chinese bank opening in America can hire anyone it wants. It can even invite the friends and families of American politicians to invest in can't-lose deals. President Donald Trump's children have made front pages across the world for their dicey transactions. However, the media has barely looked into questionable deals made by those close to Barack Obama, Joe Biden, John Kerry, and lesser-known politicians who have been in the game much longer. In many parts of the world, the children of powerful political figures go into business and profit handsomely, not necessarily because they are good at it, but because people want to curry favor with their influential parents. This is a relatively new phenomenon in the U.S. But for relatives of some prominent political families, we may already be talking about hundreds of millions of dollars. Hardback, 318 pages, \$29.

## *Filthy Rich: The Billionaire's Sex Scandal—The Shocking True Story of Jeffrey Epstein*

**NEW!** By James Patterson. Jeff Epstein rose from humble origins to the rarefied heights of New York City's financial elite. A college dropout with an instinct for numbers—and for people—Epstein amassed his wealth through a combination of access and skill—and possibly even blackmail. But even after he had it all, Epstein wanted more. And that unceasing desire—especially a perverse taste for young girls—resulted in his stunning fall from grace. From Epstein himself, to the girls he employed as masseuses at his home, to the cops investigating the appalling charges against him, Patterson examines all sides of a case that scandalized one of America's richest communities. Epstein is best known to AFP readers as the

owner/operator of “Pedophile Island,” a place where extraordinarily rich and powerful men went to relax and meet young women—very young women. Flight logs show that from 2001 to 2003, Bill Clinton flew on Epstein's private plane 26 times. After Epstein's arrest in July 2006, federal tax records show Epstein donated \$25,000 to the Clinton Foundation that year. Epstein's “little black book” also contained contact numbers for Hollywood stars and powerful people like Tony Blair, Prince Andrew, Kevin Spacey, Dustin Hoffman, Michael Bloomberg and more. Softcover, 304 pages, \$28.

## *The Wandering Who? An Examination of Jewish Identity Politics*

**NEW!** This book by Israeli intellectual Gilad Atzmon is an exposé of Jewish identity politics. Jewish identity is tied up with some of the most difficult and contentious issues of today, as any perusal of a newspaper will reveal immediately. The purpose of this book by a Jewish man is to open many of these issues up for open and honest discussion. Atzmon examines the tribal aspects embedded in Jewish secular discourse, both Zionist and anti-Zionist; the allegation that the holocaust has been turned into a religion; the meaning of “history” and “time” within the Jewish political discourse; and the anti-Gentile ideologies of secular Judaism. He questions what it is that leads Diaspora Jews to identify themselves with Israel and affiliate with its politics. Softcover, 211 pages, \$18.

## *Let Trump Be Trump: The Inside Story*

**NEW!** Here is the ultimate behind-the-scenes account of how Trump became president. Trump was a candidate—and now a president—like none who have come before. His startling rise to the White House is the most shocking political tale in the history of our republic. Much has been written about this event, but all of those words come from authors outside the orbit of Trump. Written by two of Trump's closest campaign advisors, *Let Trump Be Trump* is the eyewitness account of the stories behind the headlines. From the *Access Hollywood* recording and the Clinton accusers, to Paul Manafort, to the last-moment comeback, *Let Trump Be Trump* pulls back the curtain on a drama that has mesmerized the whole world—including the intrigues of Spicer, Preibus, Bannon, and more. Hardback, 296 pages, \$27.

## *It's Not Easy Being God: The Real George Soros*

**NEW!** In this collection of essays, Joy Tiz, author of *Obamanutz: A Cult Leader Takes the White House*, provides an unnerving analysis of the man who thinks he's God—billionaire radical leftist and social engineer George Soros. This collection of exposés unmasks George Soros for what he is: one of the most detrimental forces on the planet, a man who may have shaped our world more than any man in two millennia. What is his personal agenda? What is his vision of the New World Order? What was his relationship with Barack Obama? Where is he dumping his money? Who are his allies? Who are his enemies? Softcover, 108 pages, \$16.

## *Rogue Spooks: The Intelligence War on Trump*

**NEW!** Donald Trump's time in office has been roiled by allegations of treasonous contacts between his campaign team and the Kremlin to rig the election. These outrageous charges surfaced in the notorious “Trump Dossier,” an unverified document of suspect provenance, full of wild accusations. This dossier—little more than gossip and innuendo—was compiled by Christopher Steele, a former British intelligence agent who teamed up with the FBI and anti-Trump partisans. Hillary supporters paid for Steele's work. When no news media would publish the unverified dossier, the ex-spook enlisted the help of a former UK ambassador to Russia, who arranged for a former assistant secretary of state to get it to Sen. John McCain, hoping he would bring it to FBI Director James Comey. He did just that. Comey played a critical role in the dossier going public, giving a confidential summary to President Obama and congressmen. It was leaked by rogue spooks in order to destroy Trump. Working with liberal news outlets, these rogue spooks have formed a new intel/media complex that threatens our democracy. Bestselling authors Dick Morris and Eileen McGann expose the entire truth. Hardback, 288 pages, \$28.

# More Politics & Intrigue

## *All Out War: The Plot to Destroy Trump*

**NEW!** With ferocity not seen since the Civil War, the Washington establishment and the radical Left are joining forces in an attempted coup d'état to overturn the will of the people and return power to the political and media elites who have never been more unhinged. Investigative reporter and national best-selling author Edward Klein reveals: How the plot to destroy Trump was initiated in the Obama White House; two exclusive FBI reports that prove the existence of "the Deep State" working against the Trump agenda, warn of ISIS ties to the anti-Trump "resistance," and highlight the danger of domestic terrorism from the anti-Trump radicals; the scandal you don't yet know about: why Hillary Clinton could still be facing investigation by the FBI and prosecution by the Justice Department. "In America, you are entitled to your own opinion," Klein writes, "but you are not entitled to overthrow the democratically elected president of the United States and inflict irreparable damage on our country." That, however, is what Donald Trump's enemies on the Left and Right are doing. Hardback, 256 pages, \$29.

## *Truth Jihad: My Epic Struggle Against the 9/11 Big Lie*

**NEW!** Millions of people now know the main arguments for the thesis 9/11 was an inside job, starting from the controlled demolition of the World Trade Center buildings No. 1, 2 and 7. Dr. Kevin Barrett has written a gospel for a new generation of post-9/11 skeptics. This ebullient book strikes a confident keynote for this sudden coming of age. It is for millions of disenfranchised 9/11 truthers—and for the uneasy majority who sense that America is no longer on the right track. Softcover, 222 pages, \$12.

## *In the Shadows of the American Century: The Rise and Decline of U.S. Global Power*

In a completely original analysis, prize-winning historian Alfred W. McCoy explores America's rise as a world power—from the 1890s through the Cold War—and its bid to extend its hegemony deep into the 21st century through a fusion of cyberwar, space warfare, trade pacts, and military alliances. McCoy then analyzes the marquee instruments of U.S. hegemony—covert intervention, client

elites, psychological torture, and worldwide surveillance. Peeling back layers of secrecy, McCoy exposes a military and economic battle for global domination fought in the shadows, largely unknown to those outside the highest rungs of power. Can the United States extend the "American Century" or will China guide the globe for the next hundred years? McCoy devotes his final chapter to these questions, boldly laying out a series of scenarios that could lead to the end of Washington's world domination by 2030. Softcover, 280 pages, \$18.

## *More Guns, Less Crime: Understanding Crime & Gun Control Laws—3rd Edition*

On its initial publication in 1998, John R. Lott's *More Guns, Less Crime* drew both lavish praise and heated criticism. More than a decade later, it continues to play a key role in ongoing arguments over gun-control laws: Despite all the attacks by gun-control advocates, no one has ever been able to refute Lott's simple, startling conclusion that more guns mean less crime. Relying on the most comprehensive data analysis ever conducted on crime statistics and right-to-carry laws, the book challenges common perceptions about guns, crime, and violence. Lott draws on an additional 10 years of data—including provocative analyses of the effects of gun bans in Chicago and Washington, D.C.—that brings the book up to date and bolsters Lott's contentions. Softcover, 442 pages, \$18.

## *An Act of State: The Execution of MLK*

**NEW!** In 1968, Martin Luther King was in Memphis supporting a worker strike. By nightfall, army snipers were in position, military officers were on a nearby roof with cameras, and Lloyd Jowers had been paid to remove the gun after the fatal shot was fired. When the dust had settled, King had been hit and a clean-up operation was set in motion—James Earl Ray was framed, the crime scene destroyed, and witnesses killed. Attorney William Pepper has conducted a 30-year investigation into his assassination. In 1999, Lloyd Jowers and other co-conspirators were brought to trial in a civil suit on behalf of the King family, where 70 witnesses set out the details of a conspiracy that involved J. Edgar Hoover and the FBI, Richard Helms and the CIA, the military, Memphis police, and the Mafia. Softcover, 350 pages, \$22.

## *Hell's Mirror: Global Empire of the Illuminati Builders*

**NEW!** By Texe Marrs. This is the first book to unravel the perverted minds of the Illuminati elite. These diabolical men and women are doubleminded, and they are building a strange two-faced globalist empire. Here you will discover the inner secrets of these builders. You will see their architectural creations and understand how their sinister projects—dark buildings, monuments, statues, and parks—are all part of Satan's endtime system. You will find out about the obituary cult, an underground group of super-rich charlatans bent on destroying the old world and replacing it with a carbon copy of Hell's kingdom. Throughout human history, these notorious gangsters have organized secret societies based on their worship of Lucifer and their demonic-inspired ideas. Softcover, 224 pages, 8.5" x 11" format, illustrated, \$28.

## *Survival of the Richest—How the Disparity of Wealth Created the Greatest Conspiracy of All*

**NEW!** Here's a look at economic inequality in America. *Survival of the Richest* scrutinizes how the collective wealth of America has been channeled from the poor and middle class into the hands of a few elitists. American industry has been gutted, with wages and benefits stagnant or reduced, thanks to disastrous trade deals and outsourcing. The Occupy Wall Street movement and the presidential campaigns of both Bernie Sanders and Donald Trump, reveal how more and more struggling people understand that the system is rigged against them. While Americans have been trained to direct their scorn at welfare recipients and the poor in general, a tiny handful of plutocratic elites have profited on an unfathomable scale through corporate welfare and other perks. Unimaginable salaries and bonuses for the 1%, contrasted by layoffs and reduced pay for the majority of the workforce, along with increasing calls for austerity measures and lowered standards of living, have become the "new normal" in America. Author Donald Jeffries argues that this record economic inequality is more than an unintended consequence of globalism. In *Survival of the Richest*, he shows how the consolidation of wealth may well prove to be the greatest conspiracy of all. Hardback, 280 pages, \$25.

### *No Campus for White Men: The Transformation of Higher Education Into Hateful Indoctrination*

*No Campus for White Men* shines a bright light on the growing obsession with diversity, victimization, and identity politics on today's college campuses, and shows how it is creating a hostile and fearful atmosphere that can only lead to greater polarization in society. Across the country, ugly campus protests over speakers with dissenting viewpoints make it obvious that something is terribly wrong with higher education. For years, colleges have pursued policies favoring students based not on merit but on race, gender, and sexual orientation. The negative effects of this culture can't be denied. Scott Greer exposes it all. Softcover, 240 pages, \$20.

### *No Go Zones: How Sharia Law Is Coming to a Neighborhood Near You*

While the politically correct try to deny the existence of No Go Zones, the shocking reality of these zones can be attested to by its victims. Raheem Kassam reveals areas that Western governments, including the U.S., don't want to admit exist. Kassam takes you into Islamic areas you might not even know existed—whole city districts from San Bernardino to Hamtramck, Michigan (essentially an Islamic colony in the Midwest); from Malmo, Sweden, to the heart of London, England—where infidels are unwelcome, Islamic law is king, and extremism grows. Softcover, 256 pages, \$20.

### *The Convenient Terrorist: Two Whistleblowers' Stories of Torture, Terror, Secret Wars, and CIA Lies*

A startling spotlight on the darkest corners of America's "War on Terror," where nothing is quite what it seems. *The Convenient Terrorist* is the definitive inside account of the capture, torture, and detention of Abu Zubaydah, the first "high-value target" captured by the CIA after 9/11. But was Abu Zubaydah, who is still being indefinitely held by the United States under shadowy circumstances, the blue-ribbon capture that the Bush White House claimed he was? Authors John Kiriakou, who led the capture of Zubaydah, and Joseph Hickman, who took custody of him at Guantanamo, draw a far more complex and intriguing portrait of the al Qaeda "mastermind" who became a symbol of torture and the "dark side" of U.S. security. From a one-time American collaborator to a poster boy for waterboarding, Abu Zubaydah became a "convenient terrorist"—a way for U.S. authorities to sell their "War on Terror" to the American people. Softcover, 160 pages, \$15.

### *Corporate Ties That Bind: An Examination of Corporate Manipulation and Vested Interest in Public Health*

Edited by Martin J. Walker. In the 21st century, corporations have worked their way into government and, as they become increasingly more powerful, arguments about their danger have become increasingly black and white. With corporations at the center of public health and environmental issues, everything chemical or technological is good, everything natural is bad; scientists who are funded by corporations are right and those who are independent are invariably wrong. Here is a collection of essays written by influential professionals from around the world that address how the growth of corporatism is destroying democracy and personal choice. Whether addressing asbestos, radiation, PCBs or vaccine regulation, the essays here address the dangers of trusting corporations that put profits before health. Hardback, 592 pages, \$35.

### *Second Amendment Primer*

So much of the debate about the Second Amendment is in academic papers written by scholars and judges, or directed towards other scholars, law professors, attorneys, and judges. Trying to wade through the extensive footnotes and references to legal cases and historical precedents known only to the academic elite is more than enough to make anyone feel hopeless. With *The Second Amendment Primer*, Les Adams finally provides an accessible discussion of the Second Amendment. Chronologically arranged, it traces the development of the right to keep and bear arms from its birth in ancient Greece to its addition in the Constitution. Supplemental essays discuss other aspects of the Second Amendment. Softcover, 368 pages, \$15.

### *The Putin Interviews*

Interviewer Oliver Stone. Comments by Robert Scheer. Filmmaker Oliver Stone's interviews with Russian president Vladimir Putin are transcribed here. They freely talk about issues important to U.S.-Russia relations. Stone was able to secure unprecedented access to Putin over a two-year span—never before has the Russian leader spoken at such length with a Western interviewer. No topics are off limits in the interviews, which first occurred during Stone's trips to meet with NSA whistleblower Edward Snowden in Moscow and most recently after the election of Trump. Prodded by Stone, Putin discusses relations between the U.S. and Russia, allegations of interference in the U.S. election, and Russia's involvement in Syria, Ukraine, etc. Putin speaks about his rise to power and details his relationships with Clinton, Bush, Obama, and Trump. The exchanges are personal, provocative, and at times surreal. Softcover, 288 pages, \$20.

### *The Plot to Scapegoat Russia: How the CIA and the Deep State Have Conspired to Vilify Putin*

By Dan Kovalik, introduction by David Talbot. Since 1945, the U.S. has justified numerous wars based on the pretext of the Russian Red Menace, even after the Soviet Union collapsed in 1991. In fact, the two biggest post-war American conflicts, the Korean and Vietnam wars, were not, as has been claimed, about stopping Soviet expansion, but about maintaining old colonial relationships. Similarly, many lesser interventions and conflicts, such as those in Latin America, were also based upon an alleged Soviet threat, which was nonexistent. Now the specter of a Russian Menace has been raised again. *The Plot to Scapegoat Russia* examines the proliferation of stories, from American state actors, manipulating the threat of Russia, and the long history of which this episode is but the latest chapter. Softcover, 240 pages, \$19.

### *Towards a World War III Scenario: The Dangers of Nuclear War*

By Michel Chossudovsky. The U.S. has embarked on a military "adventure," which threatens the future of humanity. U.S.-NATO weapons of mass destruction are portrayed as instruments of peace. Mini-nukes are said to be "harmless to the surrounding civilian population." Preemptive nuclear war is portrayed as a "humanitarian undertaking." While one can conceptualize the loss of life and destruction resulting from present-day wars including Iraq and Afghanistan, it is impossible to fully comprehend the devastation that might result from a Third World War, using new technologies. Softcover, 102 pages, \$16.

### *America's "War on Terrorism"*

Michel Chossudovsky blows away the smokescreen put up by the mainstream media, that 9/11 was an attack on America by Islamic terrorists. This expanded edition, which includes 12 new chapters, focuses on the use of 9/11 as a pretext for the invasion and illegal occupation of Iraq, the militarization of justice and law enforcement and the repeal of democracy. According to Chossudovsky, the "war on terrorism" is a complete fabrication based on the illusion that one man, Osama bin Laden, outwitted the \$40 billion-a-year American intelligence apparatus. The war on terrorism is a war of conquest. Globalization is the final march to the New World Order, dominated by Wall Street and the Pentagon. Softcover, 387 pages, \$25.

## More Politics & Intrigue

### *A Century of War: Anglo-American Oil Politics in the 20th Century*

This classic book is back in stock and more important than ever. “Control the oil and you control entire nations,” said Henry Kissinger. Oil is an instrument of world domination in the grip of the Anglo-American empire. This book is a gripping account of the murky world of the Anglo-American oil industry and its hidden role in world politics. F. William Engdahl takes the reader through the history of how seven giant oil companies—five American and two British—developed a controlling grip on the world’s economy unprecedented in history. This is no ordinary history of oil. It is a history of global geopolitics—how control of strategic geographical pivot regions helps control in large part the world economy. The book sheds light for the first time on such events as the 1973 oil shock—a sudden 400% rise in the price of the world’s most essential commodity in a matter of weeks. What the author reveals, with flawless documentation, will shock most uninformed people. The implications are even more devastating. He also documents how oil played an essential role in the ultimate collapse of the Soviet Union, in the rise and fall of the Taliban in Afghanistan, in the U.S. occupation of Iraq, and countless other events not normally understood in such a light. Softcover, 352 pages, \$25.

### *Gods of Money: Wall Street & the Death of the American Century*

By F. William Engdahl. This is a book about power and about an extraordinarily wealthy elite that has wielded unprecedented power, not for the good, but rather for the enhancement of their own private position. The book tracks the evolution of the power amassed by a tiny group of men who have regarded themselves, quite literally, as gods—the Gods of Money. Their agenda has included assassinations of two of America’s most popular presidents; involvement of the United States against the public will in two world wars; and detonation of the world’s most destructive weapon, the atomic bomb, on Japanese civilians. It has included scores of regional wars, political assassinations, coups, and systematic corruption of the body politic. The book reveals in an unusual and surprising manner how this powerful elite has systematically set out to literally control the entire world, backed by the most powerful military force in the world. Softcover, 390 pages, \$25.

### *9/11: Made in Israel—The Plot Against America*

What this Victor Thorn book makes clear, and what many 9/11 “truthers” don’t know, is that a massive deception and cover-up exists not only in the mainstream media, but in the so-called 9/11 truth movement as well. It is true that 9/11 was an “inside” job, and criminal elements within the U.S. government were undoubtedly involved. But 9/11 was much more. It was an “outside” job also, ultimately facilitated by multiple, well-coordinated Zionist and Jewish factions. Who benefited from the attacks on 9/11? Israeli Prime Minister Benjamin Netanyahu said, “We [Israelis] are benefiting from one thing, and that is the attack on the Twin Towers and Pentagon.” Considering the fact that the rogue state of Israel has a prior criminal record of perpetrating just such a crime—the June 8, 1967 attack on the USS *Liberty*—the line of questioning in this case is clear: “Was 9/11 made in Israel?” Softcover, 138 pages, \$15.

### *9/11 Evil: Israel's Central Role in the September 11, 2001 Terrorist Attack*

By Victor Thorn. This is the book that many influential 9/11 organizations and the ADL don’t want you to read or talk about. This is the book the Anti-Defamation League don’t want you to read or talk about. They describe it as “preposterous,” simply because the evidence compiled points a finger at Israel as a major player in the Sept. 11, 2001 terrorist attacks on America. But facts are facts; we do not control where they lead. We already know why 9/11 was done, and that the WTC towers were demolished. But most everyone wants to shy away from *who* ultimately did 9/11. In the author’s opinion, the intelligence services of the nation of Israel played a central role in the 9/11 terrorist attack and he presents his body of evidence in the pages of *9/11 Evil*. Softcover, 123 pages, \$15.

### *Remember the Liberty! Almost Sunk by Treason on the High Seas*

On the warm, sunny-bright day of June 8, 1967, starting at about 6:00 a.m., at least 12 Israeli aircraft of different types began surveilling the USS *Liberty*, some of which were only 100 feet or less in altitude, apparently to photograph her for later targeting purposes. The precision of the later attack could only have been accomplished

through such pre-planning, specifically identifying the priority targets, starting with the gun mounts to render the ship defenseless, followed by all of the 45 different radio antennae and related transmitting equipment. When the attack was over, 34 men were dead and 174 injured, some near death. Unlike every other book written about the attack—none of which provides a satisfactory explanation of what really caused it—*Remember the Liberty!* examines it in complete context of how it was positioned there by Johnson himself, for the very purpose of being attacked, and sunk. Softcover, 480 pages, \$20.

### *The Controllers: Secret Rulers of the World*

Throughout history, there have always been powerful people who work secretly behind the scenes to advance their own objectives, often to the detriment of the public. A few thousand wealthy and influential people who operate secretly behind the scenes largely control the world. This book identifies them, exposes some of their past activities, and sets forth ways of dealing with them. A system of global control, referred to as the “New World Order” by President George H.W. Bush, is in effect today. Insiders are promoting a one-world government, a one-world economy and a one-world religion, with themselves in charge of it all. A growing number of people are aware of what is going on, and are becoming increasingly resistant to the idea of a global socialistic dictatorship. This book seeks to add to that awareness. Softcover, 505 pages, \$26.

### *Shall Not Be Infringed: The New Assaults on Your Second Amendment*

David Keene and Thomas Mason analyze the decades-long campaign to restrict or even abolish the Second Amendment rights of Americans. They outline and examine the ongoing battle fought in the courts, Congress, and state legislatures across the country as well as in the media and even the UN. Although the Supreme Court ruled the Second Amendment guarantees an individual right to “keep and bear arms,” various political leaders have promised to challenge this constitutional freedom, even vowing to make it a litmus test for Supreme Court nominees. Also addresses preventing crime, anti-gun proposals to restrict the fundamental gun ownership rights of Americans etc. Softcover, 206 pages, \$23.

### *A Conflict of Interest*

Australian-born M.J. Greene reached a crossroad in her career. With a desire to do something meaningful, she took the opportunity to work as general manager for one of the largest multinational organizations in Afghanistan. As Greene immersed herself into preparing for her new position, she had no idea that very soon, she would be mustering the courage to reveal the truth and stand up for what was right, regardless of the personal sacrifice. Greene begins with the details of her journey as she left for Afghanistan as a fresh-faced subcontractor. But as she arrived in a hostile environment, she soon realized that she would need to rely on her instincts in order to survive. Greene reveals how she was led down a dangerous path lined with closely guarded secrets. Softcover, 249 pages, \$22.

### *Against Our Better Judgment: The Hidden History of How the U.S. Was Used to Create Israel*

Soon after WWII, Dean Acheson warned that creating Israel on land already inhabited by Palestinians would imperil American interests in the region. Despite warnings, President Truman supported a Jewish state on land primarily inhabited by Muslims and Christians. Few Americans today are aware that U.S. support enabled the creation of the modern state of Israel. Fewer know that U.S. politicians pushed this policy over the forceful objections of experts. These dissenters were bombarded by a massive pro-Israel lobbying effort that ranged from well-funded Zionist organizations to an “elitist secret society” whose members included Justice Louis Brandeis. Alison Weir provides a clear view of the history of the situation. Softcover, 260 pages, \$18.

### *The Intimidation Game: How the Left Is Silencing Free Speech*

From journalist Kim Strassel comes an insightful, alarming look at how the radical Left, once the champion of civil liberties and free speech, is today orchestrating a campaign to bully and frighten Americans out of their free speech rights. *The Intimidation Game* provides a chilling exposé of political scare tactics, including: how *Citizens United* set off a wave of liberal harassment against conservatives, the targeting of tea party groups by the IRS, how states have shut down conservative political activism businesses and websites, and much more. This book shines a light on how liberal governance and the liberal machine ensure varying opinions never reach the public. Hardcover, 416 pages, \$30.

### *THE HILLARY (AND BILL) TRILOGY* *The Sex Crimes Volume*

Part One of the Clinton Trilogy. Bill and Hillary’s meteoric rise to success is chronicled. It’s a carefully plotted path that has led to the White House. But along the way, a series of compromises had to be made, including a pre-arranged marriage, assignments for the CIA, and Hillary’s ultimate role as a “fixer” for her husband’s rapes and incidents of sexual harassment. Pulling no punches, in-

vestigative journalist Victor Thorn paints a compelling portrait of secrecy, deceit, violence and betrayal that shatters the myth the Clintons have crafted. Softcover, 344 pages, \$30.

### *The Drugs Volume*

Part Two of the Clinton Trilogy. Some of the most damning examples ever put into print of the U.S. government’s crimes and corruption are exposed in glaring detail. Beginning with the Clinton family’s long-standing ties to the notorious Dixie Mafia, this book illustrates how billions of dollars of cocaine, cash and weapons passed through Mena, Arkansas during the 1980s—with the full knowledge of Bill and Hillary—to finance the illegal war in Nicaragua. This CIA-imported coke helped fuel the cocaine epidemic of the 1980s. In short, Bill and Hillary’s Arkansas became a narco-republic, with little banks near Mena laundering more money than the biggest banks in New York City. Softcover, 310 pages, \$30.

### *The Murder Volume*

Part Three of the Clinton Trilogy. Is the Clinton “body count” for real? This question has plagued the former first couple for much of their entire partnership, and has become such an integral part of popular culture that Hillary has been forced to sarcastically refer to it in press conferences. But is it just an urban legend? This volume presents an overwhelming body of evidence that proves that the 110+ people who’ve died under mysterious circumstances—all tied to the Clintons—far surpasses any chance of coincidence. Readers will encounter a grisly world of CIA drug drops, crooked police agencies, notorious coroners and corrupt judges who shield the powerful from prosecution. Softcover, 383 pages, \$30.

### *Crisis of Character: A White House Secret Service Officer's Firsthand Experience with Hillary & Bill*

Gary J. Byrne served in the Secret Service and was posted right outside President William Jefferson Clinton's door. In this blockbuster, he spills the beans on Hillary and Bill and their strange behavior. Byrne served in federal law enforcement for nearly 30 years and what he saw in the Clinton White House was shocking: cocaine parties, mistresses, lewd behavior, frantic ranting and raving, screaming matches, denigration of staff, and many more troubling observations. Hardback, 304 pages, \$27.

### *Frontman: Barack Obama's Darkest Secrets Revealed*

By Victor Thorn. In 2008, Barack Obama became the face of hope and change. Yet lurking behind the scenes is a host of people who long ago selected this man to forward a global agenda. *Frontman* reveals the actual powers behind his throne: Bilderberg plotters, Zionist handlers, global financiers and Marxist activists. Exposes the cabal of men and women whose goal is to radically transform the U.S. To cover their tracks, they have carefully hidden the life history of Barack Obama from the public. Now that Obama is out of office, his political influence is still being felt in the endeavor he has chosen to pursue: undermining Donald Trump. Here is your chance to inform yourself and your friends about the many inconsistencies in his meteoric rise and the gaggle of radical people and organizations who orchestrated it. Softcover, 112 pages, \$20.

### *Conspiracy Theory in America*

Ever since the Warren Commission concluded that a lone gunman assassinated President John F. Kennedy, people who doubt that finding have been widely dismissed as conspiracy theorists, despite credible evidence that right-wing elements in the CIA, FBI, and Secret Service—and possibly even senior government officials—were involved. Why has suspicion of criminal wrongdoing at the highest levels of government been rejected out of hand as paranoid thinking akin to superstition? *Conspiracy Theory in America* investigates how the Founders' hard-nosed realism about the likelihood of elite political misconduct—articulated in the Declaration of Independence—has been replaced by today's blanket condemnation of conspiracy beliefs as ludicrous by their official definition. By Lance deHaven-Smith. Softcover, 272 pages, \$16. Recommended by Paul Craig Roberts.

### *Crowning Clinton: Why Hillary Shouldn't Be in the White House*

AMERICAN FREE PRESS late corresponding editor Victor Thorn picks up where he left off with his *Hillary (and Bill)* trilogy. In *Crowning Clinton*, Thorn provides groundbreaking information that mainstream media sources only caught up with months or even years afterward, if they had the courage to even touch it at all. Including more than 50 one-on-one interviews with experts, this collection taps into some of the nation's most astute political minds to present a preponderance of evidence as to why Hillary and Bill's return to 1600 Pennsylvania Avenue would be disastrous for America. Softcover, 118 pages, \$12.

### *The New World Order in Action: Globalization, the Brexit Revolution*

The rise of the NWO and the role of the Transnational Elite—the network of the economic and political elites which administers it—are examined. Furthermore, the mythology used by the elites as well as by the globalist “left” is examined. It was the full integration of the left into the new order which has led to its political bankruptcy and the rise of a neo-nationalist movement, embraced by most of the victims of globalization and particularly the working class that used to support the left. The need for a struggle for national and social liberation has become imperative. Softcover, 354 pages, \$18.

### *Everything They Ever Told Me Was a Lie*

By Pat Shannan. This book spans the past half-century and covers the unknown facts about the JFK assassination, the attempt on Ronald Reagan's life, the still-growing Apollo 11 controversy of the 1960s, the forgotten history of money, the odd connection between John Hinckley and the Bush family, the odd case of Arthur Bremer, James Earl Ray and the MLK assassination, Tim McVeigh's last secrets, the Sept. 11 attacks and the Barack Obama citizenship debate. This book explains from the outset exactly who “they” are and how the mockingbird media allow outrageous lies to meld into false history. Softcover, 280 pages, \$25.

### *The Bilderbergers: Puppet-Masters of Power*

By Gerhard Wisniewski. Since 1954, a discrete and select group of wealthy and powerful individuals have attended a private, yearly conference to discuss matters of their choosing. This group represents European and North American elites, as well as new talent and rising stars, from the worlds of politics, business, media, academia, the military and even royalty, and has included household

names such as Margaret Thatcher, Henry Kissinger, and Prince Philip. In recent years, their numbers have featured David Cameron, Tony Blair, Angela Merkel, Bill Clinton, and David Rockefeller. They are “the Bilderbergers,” named for the hotel in the Netherlands where their secret gatherings were first hosted. Investigative writer Gerhard Wisniewski explores the numerous claims of conspiracy that swirl around the group, revealing names of participants, their agendas, and their goals. Examining records and hidden reports, the author uncovers the true history of the organization. Softcover, 288 pages, \$25.

### *Jim Tucker's Bilderberg Diary*

Late, longtime investigative journalist Jim Tucker lays out his remarkable history of covering Bilderberg (and its Trilateral and CFR allies), infiltrating Bilderberg meetings, procuring their private documents, and working relentlessly to shine the spotlight of public scrutiny on Bilderberg's affairs. Tucker introduces you to the little-known arena of the Bilderberg elite. This volume includes representative lists of Bilderberg membership over the past several years. Includes more than 80 on-the-scene photos of the Bilderbergers in action plus pictures of the author hobnobbing with the likes of Dick Cheney, Gerald Ford, Lady Thatcher plus photo reproductions of actual Bilderberg documents. Softcover, 253 pages, \$25.

### *Conspireality*

By Victor Thorn. Incredibly, in these pages you'll learn how the Patty Hearst kidnapping, a CIA-financed remote viewing project, the Zodiac killings, a barbaric prison experiment and widespread cybernetic mind-control programs can all be tied to one geographic locale in California. By book's end, as readers climb back out of the maze, they realize that, akin to the ongoing myth of “lone nut assassins,” all of these events are interconnected. Softcover, 237 pages, \$25.

### *They Killed Our President: 63 Reasons to Believe There Was A Conspiracy to Assassinate JFK*

It's been nearly 55 years since John F. Kennedy was assassinated, and it's time we all knew the facts, theories and myths surrounding the plot to kill JFK. Jesse Ventura, Dick Russell and David Wayne offer a compendium discussing the plot to the murder to the cover-up. This book discusses the most famous of theories, such as the second shooter on the grassy knoll, and also offers recently discovered testimony that shows that elements of the U.S. government were behind the assassination. Softcover, 349 pages, \$30.

### *The JFK Assassination and the Uncensored Story of the Two Oswalds*

On Nov. 20 and 22, while “Lee Harvey Oswald” was working at the Book Depository, he was identified by multiple witnesses at Dobbs House Restaurant, Top Ten Records and the Jiffy Store. He was also identified as being seated with Jack Ruby some 10 hours after he was jailed! After Officer Tippitt was killed, cops found a wallet containing the ID cards of both Lee Harvey Oswald and a man named Alek Hidell, who could have been Oswald’s twin. When Harvey was arrested 40 minutes later, he was carrying in his wallet the exact same ID cards. Investigative journalist Pat Shannan leads us to even more facts about the “two Oswalds.” Softcover, 158 pages, \$20.

### *63 Documents the Government Doesn't Want You to Read*

Top investigators Jesse Ventura and Dick Russell walk readers through 47 of the most incriminating programs in 63 formerly classified documents to reveal criminal behavior at the top levels of government and the media. Among the cases discussed are: the CIA’s top-secret program to control human behavior; the military plan to hijack airplanes and blame it on Cuban terrorists; the discovery of a secret Afghan archive; deadly healthcare cover-ups; what the Department of Defense knows about our food supply but we don’t—and should; and much more. Hardcover, 288 pages, \$27.

### *American Conspiracies: Lies, Lies and More Lies That the Government Tells Us*

In this exposé of wrongful acts and cover-ups, Jesse Ventura looks closely at the conspiracy theories that have been presented over the years and separates the fact from the fiction. Ventura says many political murders need to be re-examined. Was the CIA involved in Watergate? Did the GOP steal two elections for Bush? Has all evidence been presented on 9/11? Is the collapse of the financial order and the bailouts by the Fed the biggest conspiracy ever? Softcover, 246 pages, \$17.

### *The Man Who Killed Kennedy: The Case Against LBJ*

Political insider Roger Stone makes a compelling case that Lyndon Johnson had the motive, means and opportunity to orchestrate the murder of JFK. Stone maps out the case that LBJ blackmailed his way onto the ticket in 1960 and was being dumped in 1964 to face prosecution for corruption at the hands of Attorney General Bobby Kennedy. Stone uses fingerprint evidence and testimony

to prove JFK was shot by a long-time LBJ hit man—not Oswald. Johnson would use power from his connections in Texas, from the mafia, and from the U.S. government to escape his untimely political end and to seize power. Softcover, 480 pages, \$30.

### *Phantom Flight 93 and Other Astounding 9-11 Mysteries Explored*

By Victor Thorn. Flight 93 is the smoking gun that exposes the government’s falsehoods once and for all. Starting with physical evidence, it becomes clear that a passenger jetliner could not have possibly crashed in Shanksville where federal officials said it did. Rather, the reality of that fateful morning is much more troublesome, and far more sinister. Also cited in this book are a plethora of lies concerning the now-infamous cell phone calls, 9/11 passenger list oddities, corrupt officials who assisted the plan, wreckage of the plane found far from the crash site, areas cordoned off by the FBI etc. Softcover, 200 pages, \$20.

### *The Failure of Laissez Faire Capitalism*

By Paul Craig Roberts. The 1% have pulled off an economic and political revolution. By offshoring manufacturing and professional jobs, U.S. corporations destroyed the growth of consumer income, the basis of the U.S. economy, leaving the bulk of the population mired in debt. Deregulation was used to concentrate income and wealth in fewer hands and “too big to fail” corporations. Environmental destruction has accelerated as economists refuse to count the exhaustion of nature’s resources as a cost and as corporations impose the cost of their activities on the environment and on third parties who do not share in the profits. Roberts helps us understand the mistakes that are bringing the West to its knees. Softcover, 190 pages, \$19.

### *How America Was Lost: From 9/11 to the Police/Warfare State*

By Paul Craig Roberts. This remarkable anthology of columns reminds us of the extraordinary developments that, in their accumulation, have led to the destruction of accountable and moral government in the U.S. Few American commentators have cut more clearly through the deepening deceit, hypocrisy and outright criminality that have infested official Washington since 9/11 than Roberts. His scathing critique sheds much-needed light on the country’s impending nightmare—economic collapse, internal repression, ongoing wars, and rising rejection by friends and foes alike. America’s fate was sealed when the public and the anti-war movement bought the government’s 9/11 conspiracy theory. This defining event of our time,

which has launched the U.S. on interminable wars of aggression and a domestic police state, is a taboo topic for investigation in the media. Trillion-dollar wars have created financing problems for Washington’s deficits, threatening the dollar’s role as world reserve currency, and putting Social Security and Medicare on the chopping block. With over 21% unemployment, with American jobs, GDP, and technology having been given to China and India, with war being Washington’s greatest commitment, with the dollar over-burdened with debt, with civil liberty sacrificed to the bogus war on terror, the liberty and prosperity of the American people have been thrown into the trash bin of history. The militarism of the U.S. and Israeli states, and Wall Street and corporate greed, will now run their course. Softcover, 465 pages, \$25.

### *The DEA Report: Did Israel Have Foreknowledge of the Sept. 11 Attacks?*

Details about a massive Israeli espionage operation on U.S. soil during the months preceding the Sept. 11, 2001 tragedy that was exposed by the U.S. Drug Enforcement Administration. Why were Israeli spies trying to infiltrate sensitive American installations around Sept. 11? The report was quickly suppressed after release, but here it is—all redactions removed! Softcover, 8.5 by 11, 60-page reproduction, \$15.

### *The Neoconservative Threat to World Order: Washington's Perilous War for Hegemony*

This stellar collection of Paul Craig Roberts essays explores the extreme dangers in Washington’s imposition of vassalage on other countries and Washington’s resurrection of distrust among nuclear powers, the very distrust that Reagan and Gorbachev worked to eliminate. The neo-conservatives have become entrenched in successive American administrations, both Republican and Democratic. Their ideology of U.S. global hegemony, the doctrine that no other power will be allowed to arise that could constrain U.S. unilateral action, has become a foundation of U.S. foreign policy and has led to reckless intervention in Ukraine and an irresponsible assault on Russian national interests. In pursuit of hegemony, Washington has expanded NATO to Russia’s border, instigated “color revolutions” in former parts of the Soviet Union, announced a “pivot to Asia” to encircle China, orchestrated a coup in Ukraine, demonized Putin, and imposed warlike sanctions against Russia. These reckless actions have brought back the risk of nuclear war. This succession of events has impelled Roberts, following an illustrious career in government, journalism and academia, to write this enlightening book. Softcover, 308 pages, \$25.

### *A Government of Wolves: The Emerging American Police State*

John W. Whitehead charts America's transition from a society governed by "we the people" to a police state governed by the strong arm of the law. Whitehead believes that the American people are in grave danger of losing their basic liberties. The simple fact is that the Constitution—and in particular the Bill of Rights—is being undermined on virtually every front. Indeed, everything America was founded upon is being challenged. This book has been hailed by those on the left and right due to its masterful chronicling of America's shift away from the rule of law and the Constitution. Whitehead also offers a call to action. Hardback, 288 pages, \$25.

### *Battlefield America: The War on the American People*

By John Whitehead. With a foreword by Ron Paul. Here's the follow-up to his award-winning book *A Government of Wolves*. John W. Whitehead paints a terrifying portrait of a nation at war with itself and on the verge of undermining the basic freedoms guaranteed in the Constitution. Police have been transformed into extensions of the military, towns and cities have become battlefields, and the American people have been turned into enemy combatants, to be spied on, tracked, scanned, frisked, searched, intimidated, invaded, raided, manhandled, censored, silenced, shot at, locked up and denied due process. Yet this police state did not come about overnight. Rather, the evolution has been so subtle that most American citizens are hardly even aware. Hardback, indexed, 337 pages, \$25.

### *Conspiracy Facts: Neocons Unmasked*

If you really want to know what is taking place and who is causing it to happen in the 21st century, you need to read this book. It is an exposé of a thousand years of true history never revealed by the Controlled Major Mass Media, with over 45 riveting chapters by patriotic authors and independent blogs never before available in book form. Featuring Cushman Cunningham, author, World War II pathfinder and Harvard graduate, this one-of-a-kind volume of true history is augmented by many visuals including maps, graphs, photos, captions and charts that will further educate the readers. Also includes an article penned by Victor Thorn about the 1967 USS *Liberty* attack. This is a book you need to read and pass on to a friend: Neoconservative isn't conservative at all. Its basic tenets rest on a plank of radicalism, perpetual war and uncontrolled debt. It is the movement of the New World Order and, thus, many of its adherents have no loyalty to the United States. Softcover, 351 pages, \$19.

### *On the Road to American Socialism: A Christian Perspective*

By Al Hays, Ph.D. Any prediction of a pending economic or social disaster is often difficult for people to accept if enough evidence is not available to support it. In this case, evidence is plentiful. History teaches that socialism always brings wars, chaos, hunger, poverty, extreme sacrifice and social upheaval. But socialism is always sold as a fair answer to human problems. In this case the evidences show that socialism is alive and well here in America, and has been so for decades, though not always openly visible or recognizable. This book was written to examine each of the goals and intentions of socialism, and how well it has accomplished those goals in America. Softcover, 377 pages, \$25.

### *The Ron Paul Revolution: The Speeches and Writings of Congressman Ron Paul*

An important compilation of speeches and writings from America's first former congressman and presidential candidate Rep. Ron Paul on a wide range of important topics. Perfect for introducing others to the politics of Ron Paul or familiarizing yourself even better with his constitutional ideology—and why he has such a huge following. Edited by Christopher Petherick. Foreword by Charlotte Iserbyt. Softcover, 286 pages, \$25.

### *America's Racial Powder Keg: How a Violent Dependency State Has Been Created in the Black Community*

Compiled and edited by Victor Thorn. After being promised a "post-racial" America by Barack Obama, this nation has instead seen cities set ablaze, anarchy in the streets, police officers assassinated in cold blood and violence directed against innocent whites. Rather than trying to temper this outrageous behavior, Obama and his cronies, including former Attorney General Eric Holder, gave their none-too-subtle nod of approval by associating with greedy race-peddlers like Al Sharpton. Spearheading a grievance industry that's based upon an overt hatred of whites dating back hundreds of years, Sharpton and company have become fabulously wealthy as their black followers spiral toward destruction. *America's Racial Powder Keg* examines this phenomenon like no mainstream book has the courage to do. Softcover, 149 pages, \$20.

### **THE MATTHIAS CHANG TRILOGY:**

#### *1. Future FastForward: The Zionist Anglo-American Empire Meltdown*

Is the alliance between the U.S., the British Empire, and Israel a paper tiger or a mighty empire? Is global "Empire Capitalism" about to come crashing down? These are just some of the questions addressed by Matthias Chang, a former top-level political advisor for Malaysia's longtime nationalist prime minister, Dr. Mahathir Mohammad. He reveals the ultimate secret that has enabled these swindlers to amass a financial empire greater than the U.S. economy. This book exposes so much important information about the global financial system that would otherwise have remained hidden forever. The author is a passionate advocate for the abolition of the Federal Reserve System and a strict policing of the central banks controlling the global economy. ### *ISIS IS US: The Shocking Truth Behind the Army of Terror*

**NEW!** Did the "Islamic State" spring full-blown into spontaneous being as the fanatical scourge of the Middle East, or was it helped along by state sponsors? In *ISIS Is Us*, a panel of cutting-edge researchers tells what ISIS really is, and what has been going on secretly in Iraq, Syria, and Libya. The conclusion: ISIS is Iran-Contra all over again. In the 1980s, the Reagan administration wanted to topple the government of Nicaragua, using mercenary death squads based in Honduras. But Congress passed a law prohibiting that. So they went around it, by financing the Contra army via Iran. Three decades later, Washington hawks wanted to topple the elected governments of Libya and Syria, and crush the popular resistance in Iraq. Once again, they planned to do this using death squads. They got around Congress by having Qatar and Saudi Arabia finance it. Over the next couple of years, the embedded mockingbird media perversely pinned the killings of civilians on Syria's Bashar al-Assad. Only Russia's UN veto spared Syria. Still, the sheikhs kept on financing the "rebels"—and the U.S. pretended to fight them—until they grew into the ISIS terror army. The authors of *ISIS Is Us* dig deeper and look harder than any to bring you the full story. Softcover, 270 pages, \$20.

### *GLADIO: NATO'S Dagger at the Heart of Europe*

**NEW!** (Expanded) Wet works, false flags, assassinations, and subversion pin Europe down as a U.S. colony. NATO death squads masquerade as a rear guard against a possible communist takeover, but are in reality a hideous cancer poisoning European democracy. NATO's dirty war projects have included the Italian Strategy of Tension, the Red Brigades and Baader Meinhof/Red Army Faction, the Banco Ambrosiano scandal, the deaths of Italian ex-PM Aldo Moro, banker Roberto Calvi, media magnate Robert Maxwell, Swedish PM Olaf Palme, and "The Umbrella Murder"; also the attempt on Pope John Paul II's life, the sex snare set for British PM Harold Wilson, and the Cyprus partition and genocide. Gladio architect Lyman Lemnitzer is implicated in the 1944 reintroduction of the Mafia into Sicily and the murders of the Kennedy brothers. Covert NATO operations were behind Solidarnosc, the fall of the Soviet Union, the color revolutions of Eastern Europe and North Africa, and the massacres of August 2011 in Norway and Libya. Softcover, 498 pages, \$25.

### *The THORN Trilogy*

Victor Thorn: During his career, this fearless researcher gored more sacred cows and made more high-profile enemies than any investigative journalist in history. Some of them were very powerful people. These high-level criminals would like nothing more than to see Victor's memory fade into the sunset. But we refuse to let that happen. One of the primary goals of this project was to publish a three-volume book series of over 600 pages long, each book containing about 200 pages of uncensored Victor Thorn writings. Simply called *THORN*, this amazing collection of old-fashioned, hard-hitting investigative reporting is how we make Hillary and Bill (and every enemy of the truth) stop their celebration and start quaking again at the mention of Victor Thorn. The trilogy came in at 614 pages. Here is a partial table of contents of the subjects covered: The real Benghazi scandal; The Obamacare scam; Scientist killed to hide revolutionary fuel technology; Obama's alternative energy scams; Protesting patriot ranchers speak to Thorn; Continuing mysteries surrounding the 9/11 attacks; The Fukushima power plant disaster; Why George Soros wants to incite a race war; The race hustlers profiting from black-white conflict; Hillary Clinton's incestuous ties to Wall Street; How Hillary silenced Bill's victims; much more. Three softcover volumes, 614 total pages all from the great Victor Thorn. **\$25 per volume OR \$65 for the entire three-volume set.**

### *Final Judgment Two-Volume Commemorative Edition*

In this two-volume book set, late investigative journalist Michael Collins Piper documents that JFK's efforts to prevent Israel from building nuclear weapons of mass destruction played a key role in the conspiracy behind his assassination. Elements of the CIA and organized crime were involved in the JFK conspiracy, but the role of Israel's intelligence agency, the Mossad, was the long-suppressed "missing link" that was finally unveiled in this titanic work. When *Final Judgment* was first released in 1994, even some critics of Israel were skeptical of Piper's allegation that the Mossad had been involved in the JFK conspiracy. Despite this, *Final Judgment* became an overnight "underground bestseller" and now—more than two decades later—continues to be "must" reading among patriots all across America. Now in two volumes, this extraordinary work demonstrates beyond any doubt that the Israeli connection to the murder of JFK is the common thread that ties together the whole plot. *Final Judgment: Volume 1* contains the main text of the book plus Mike's amazing photo section (softcover, 425 pages). *Final Judgment: Volume 2* comprises the 10 extremely detailed appendices referenced again and again in the main body of the book (softcover, 374 pages). **Final Judgment Commemorative Edition:** Two volumes, 799 total pages—\$45.

Richard Wilson, author of *Don't Get Fooled Again*, talks about his work to debunk conspiracy theories and conspiracy theorists. Which ones can he

debunk? Which ones stand the test? Also, Phil Booth explains his campaign against mandatory ID cards. Together they speak about conspiracy theories and theorists. ## CONSPIRACY OF LIES: Flight 370 To 9/11

Since 9/11, our nation's police appear more like a military force than officers of the peace. We have seen the creation of Homeland Security, the TSA and the USA PATRIOT Act, all as a result of this one event, yet no one can explain why Building 7, which was not hit by a plane, collapsed along with the Twin Towers. We have now discovered the NSA can and does spy on every American citizen and we only need the national media to see that many of the New World Order plans are already in place. Col. Philip Corso on his deathbed claimed that the military had indeed reverse-engineered alien spacecraft and that he was responsible for disseminating the technology into the military-industrial complex. He also claimed he was aware of a secretive UFO controlling committee made up primarily of very high-ranking military officers and intelligence people. His nickname for this group was "The Unholy Thirteen." Are we living under a New World Order? Look around. It seems it's only a short matter of time until all of the control levers are put in place. **DVD, 60 minutes, \$15. LIMITED STOCK.**

## BILDERBERG: THE MOVIE

*Bilderberg: The Movie* is a documentary film about the origins, development and expansion of one of the most elitist and secret organizations in today's world: The Bilderberg Group. Delving into a world once shrouded in mystery and impenetrable security, *Bilderberg: The Movie* provides a fascinating account of the annual meetings of the Bilderberg Group. This film presents a human story that transcends borders and ideologies. Using methods that resemble the spy tactics of the Cold War, Danny Estulin did what no one else has managed to achieve: He learned what was being said behind the closed doors of the opulent hotels and gave it to the public. **DVD, one hour, \$25.**

## VAXXED: THE MOVIE From Cover-Up to Catastrophe

In 2013, biologist Dr. Brian Hooker received a call from a senior scientist at the U.S. Centers for Disease Control and Prevention (CDC) who led the agency's 2004 study on the Measles-Mumps-Rubella (MMR) vaccine and its link to autism. The scientist, Dr. William Thompson, confessed that the CDC had omitted crucial data in their final report that revealed a causal relationship between the MMR vaccine and autism. Over several months, Dr. Hooker records the phone calls made to him by Dr. Thompson who provides the confidential data destroyed by his colleagues at the CDC. Dr. Hooker enlisted the help of Dr. Andrew Wakefield, the British gastroenterologist falsely accused of starting the anti-vax movement when he first reported in 1998 that the MMR vaccine may cause autism. In his ongoing effort to advocate for children's health, Wakefield directs this documentary, examining the evidence behind an appalling cover-up committed by the government agency charged with protecting the health of all American citizens. Interviews with pharmaceutical insiders, doctors, politicians, and parents of vaccine-injured children. **DVD, 91 minutes, \$25.**
